DEPARTMENT OF PLANNING CITY OF HARTFORD

INTRODUCTION

This resource guide is intended to facilitate Hartford's various land use regulatory review processes during a time of greatly reduced staff resources. While the guide can be used as a reference by staff, it is designed as a series of one to four page handouts for public distribution. The information presented is valid as of June 13, 2003. Most of these handouts will require modification as the City moves to implement its revised Charter.

An effort was made to include the most commonly needed information, however, it is not a comprehensive listing of all code requirements. Persons using this guide are advised to consult all appropriate ordinances, regulations and statutes.

It is recommended that users contact Planning Staff to discuss their projects prior to preparing formal submissions.
